Page 1/13

Safety Data Sheet according to 1907/2006/EC (REACH), 1272/2008/EC (CLP), and **GHS**

Printing date: September 16, 2014

Revision: September 16, 2014

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

- 1.1 Product identifier
- · Trade name: NIK Test K
- · Article number: 800-6080 (1006158)
- · 1.2 Relevant identified uses of the substance or mixture and uses advised against Opiates Reagent / Heroin and Amphetamines Test
- · 1.3 Details of the supplier of the Safety Data Sheet
- · Manufacturer/Supplier: Safariland, LLC 13386 International Parkway Jacksonville, FL 32218 Customer Care (800) 347-1200
- · 1.4 Emergency telephone number: ChemTel Inc. (800)255-3924, +1 (813)248-0585

SECTION 2: Hazards identification

- · 2.1 Classification of the substance or mixture
- · Classification according to Regulation (EC) No 1272/2008

health hazard

H350 May cause cancer. Carc. 1A

corrosion

Skin Corr. 1A H314 Causes severe skin burns and eye damage.

Skin Sens. 1 H317 May cause an allergic skin reaction.

Classification according to Directive 67/548/EEC or Directive 1999/45/EC

R35: Causes severe burns.

Limited evidence of a carcinogenic effect.

May cause sensitisation by skin contact.

Information concerning particular hazards for human and environment: The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

(Contd. on page 2)

Printing date: September 16, 2014

Revision: September 16, 2014

Trade name: NIK Test K

· Classification system:

(Contd. of page 1)

The classification is according to the latest editions of the EU-lists, and extended by company and literature data.

The classification is in accordance with the latest editions of international substances lists, and is supplemented by information from technical literature and by information provided by the company.

· 2.2 Label elements

· Labelling according to Regulation (EC) No 1272/2008

The product is classified and labelled according to the CLP regulation.

· Hazard pictograms

GHS05 GHS07 GHS08

· Signal word Danger

· Hazard-determining components of labelling:

sulphuric acid formaldehyde

· Hazard statements

H314 Causes severe skin burns and eye damage.

H317 May cause an allergic skin reaction.

H350 May cause cancer.

· Precautionary statements

Wear protective clothing / eye protection. P280

Wash thoroughly after handling. P264

Do not handle until all safety precautions have been read and understood. P202

P308+P313 IF exposed or concerned: Get medical advice/attention.

P302+P352 IF ON SKIN: Wash with plenty of water.

Dispose of contents/container in accordance with local/regional/national/international P501 regulations.

Additional information:

Restricted to professional users.

· Hazard description:

· WHMIS-symbols:

D2A - Very toxic material causing other toxic effects

E - Corrosive material

· NFPA ratings (scale 0 - 4)

Health = 4 Fire = 0 Reactivity = 0

(Contd. on page 3)

Printing date: September 16, 2014

Revision: September 16, 2014

Trade name: NIK Test K

(Contd. of page 2)

· HMIS-ratings (scale 0 - 4)

*4 Health = *4 $\overline{0}$ Fire = 0

REACTIVITY | Reactivity = 0

Indicates a long term health hazard from repeated or prolonged exposures.

· HMIS Long Term Health Hazard Substances

7664-93-9 sulphuric acid

50-00-0 formaldehyde

- 2.3 Other hazards
- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

- · 3.2 Mixtures
- · Description: Mixture of substances listed below with nonhazardous additions.

Dangerous components:		50-100%
CAS: 7664-93-9	sulphuric acid	00 1007
EINECS: 231-639-5	C R35	
Index number: 016-020-00-8	Skin Corr. 1A, H314	
	formaldehyde	≤ 2,5%
CAS: 50-00-0	☐ T R23/24/25; ☐ C R34; ☐ Xn R40; ☐ Xi R43	
EINECS: 200-001-8	0-1-2	
Index number: 605-001-00-5	Carc. Cat. 3	
	Acute Tox. 3, H301; Acute Tox. 3, H311; Acute Tox. 3, H331	
	& Carc. 2, H351	
	Skin Corr. 1B, H314	
	Skin Sens. 1, H317	

· Additional information: For the wording of the listed risk phrases refer to section 16.

SECTION 4: First aid measures

- · 4.1 Description of first aid measures
- · General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Immediately rinse with water.

If skin irritation is experienced, consult a doctor.

Seek immediate medical help for blistering or open wounds.

(Contd. on page 4)

Printing date: September 16, 2014

Revision: September 16, 2014

Trade name: NIK Test K

(Contd. of page 3)

· After eye contact:

Protect unharmed eye.

Remove contact lenses if worn, if possible.

Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; call for medical help immediately.

4.2 Most important symptoms and effects, both acute and delayed

Allergic reactions

Strong caustic effect on skin and mucous membranes.

Dizziness

Coughing

Breathing difficulty

Nausea

· Hazards

Danger of gastric perforation.

Danger of severe eye injury.

Limited evidence of a carcinogenic effect.

4.3 Indication of any immediate medical attention and special treatment needed

Contains formaldehyde. May produce an allergic reaction.

Medical supervision for at least 48 hours.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

- · Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- · For safety reasons unsuitable extinguishing agents: None.
- · 5.2 Special hazards arising from the substance or mixture

During heating or in case of fire poisonous gases are produced.

- · 5.3 Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

· Additional information No further relevant information available.

SECTION 6: Accidental release measures

· 6.1 Personal precautions, protective equipment and emergency procedures

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol.

Wear protective equipment. Keep unprotected persons away.

Ensure adequate ventilation

- · 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- · 6.3 Methods and material for containment and cleaning up:

Use limestone to neutralize and absorb spill.

Send for recovery or disposal in suitable receptacles.

Dispose contaminated material as waste according to item 13.

Clean the affected area carefully; suitable cleaners are:

(Contd. on page 5)

Printing date: September 16, 2014

Revision: September 16, 2014

Trade name: NIK Test K

(Contd. of page 4)

Warm water

· 6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

· 7.1 Precautions for safe handling

Prevent formation of aerosols.

Use only in well ventilated areas.

When diluting always pour product into water and not vice versa.

- · Information about fire and explosion protection: No special measures required.
- · 7.2 Conditions for safe storage, including any incompatibilities
- Storage:
- Requirements to be met by storerooms and receptacles:

Avoid storage near extreme heat, ignition sources or open flame.

Information about storage in one common storage facility:

Store away from foodstuffs.

Store away from metals.

Do not store together with alkalis (caustic solutions).

Protect from humidity and water.

- · Further information about storage conditions: Keep container tightly sealed.
- · 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- · Additional information about design of technical facilities: No further data; see item 7.
- · 8.1 Control parameters
- · Ingredients with limit values that require monitoring at the workplace:

7664-93-9 sulphuric acid

IOELV (EU) Long-term value: 0,05 mg/m³

PEL (USA) Long-term value: 1 mg/m³

REL (USA) Long-term value: 1 mg/m³

TLV (USA) Long-term value: 0,2* mg/m³

*as thoracic fraction

EL (Canada) Long-term value: 0,2 mg/m³

ACGIH A2: IARC 1

EV (Canada) Long-term value: 0,2 mg/m³

(Contd. on page 6)

Printing date: September 16, 2014

Revision: September 16, 2014

Trade name: NIK Test K

	(Contd.	of page 5
50-00-0 forma	aldehyde	
	Short-term value: 2 ppm Long-term value: 0,75 ppm see 29 CFR 1910,1048(c)	
REL (USA)	Long-term value: 0,016 ppm Ceiling limit: 0,1* ppm *15-min; See Pocket Guide App. A	
TLV (USA)	Ceiling limit: 0,37 mg/m³, 0,3 ppm (SEN) NIC-DSEN; RSEN	
EL (Canada)	Long-term value: 0,3 ppm Ceiling limit: 1 ppm ACGIH A2; IARC 1; S	
EV (Canada)	Short-term value: 1,0 ppm	
Ceiling limit	1,5 ppm	

- · DNELs No further relevant information available.
- · PNECs No further relevant information available.
- · Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- · Personal protective equipment:
- General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin.

· Respiratory protection:

Not required under normal conditions of use.

For spills, respiratory protection may be advisable.

Use suitable respiratory protective device when aerosol or mist is formed.

· Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

(Contd. of page 6)

Safety Data Sheet according to 1907/2006/EC (REACH), 1272/2008/EC (CLP), and GHS

Printing date: September 16, 2014

Revision: September 16, 2014

Trade name: NIK Test K

· Eye protection:

Contact lenses should not be worn.

Safety glasses

· Body protection: Protective work clothing

· Limitation and supervision of exposure into the environment

No further relevant information available.

· Risk management measures

See Section 7 for additional information. No further relevant information available.

SECTION 9: Physical and chemical properties

· 9.1 Information on basic physical and chemical properties

· General Information

· Appearance:

Form:

Liquid

Colour:

Colourless

· Odour:

Acrid

· Odour threshold:

Not determined.

· pH-value at 20 °C:

< 1

· Change in condition

Melting point/Melting range:

Not Determined.

Boiling point/Boiling range:

212 °F / 100 °C

· Flash point:

Not applicable.

· Flammability (solid, gaseous):

Not applicable.

· Auto/Self-ignition temperature:

Not determined.

· Decomposition temperature:

Not determined.

· Self-igniting:

Product is not self-igniting.

· Danger of explosion:

Product does not present an explosion hazard.

· Explosion limits:

Lower:

Not determined.

Upper:

Not determined.

· Vapour pressure:

Not determined.

· Density at 20 °C:

1,76 g/cm³

Relative density

Not determined.

· Vapour density

Not determined.

· Evaporation rate

Not determined.

(Contd. on page 8)

Printing date: September 16, 2014

Revision: September 16, 2014

Trade name: NIK Test K

(Contd. of page 7)

· Solubility in / Miscibility with

Soluble.

· Partition coefficient (n-octanol/water): Not determined.

· Viscosity:

Dynamic: Kinematic: Not determined. Not determined.

9.2 Other information

No further relevant information available.

SECTION 10: Stability and reactivity

- · 10.1 Reactivity
- · 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

10.3 Possibility of hazardous reactions

Reacts with alkali (lyes).

Corrosive action on metals.

Reacts with metals forming hydrogen.

Toxic fumes may be released if heated above the decomposition point.

Heating occurs when water is added.

- · 10.4 Conditions to avoid No further relevant information available.
- · 10.5 Incompatible materials: No further relevant information available.
- · 10.6 Hazardous decomposition products: Sulphur oxides (SOx)

SECTION 11: Toxicological information

- · 11.1 Information on toxicological effects
- · Acute toxicity:
- · LD/LC50 values relevant for classification:

50-00-0 formaldehyde

Oral LD50 >200 mg/kg (rat)

- · Primary irritant effect:
- on the skin: Strong caustic effect on skin and mucous membranes.
- on the eye: Strong caustic effect.
- · Sensitization: Sensitization possible through skin contact.
- Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

Corrosive

Irritant

Danger through skin adsorption.

Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach.

May cause cancer.

(Contd. on page 9)

(Contd. of page 8)

Safety Data Sheet according to 1907/2006/EC (REACH), 1272/2008/EC (CLP), and GHS

Printing date: September 16, 2014 Revision: September 16, 2014

Trade name: NIK Test K

· Sensitisation: Sensitization possible by skin contact.

· Repeated dose toxicity:

May cause damage to organs through prolonged or repeated exposure. Repeated exposures may result in skin and/or respiratory sensitivity.

· CMR effects (carcinogenity, mutagenicity and toxicity for reproduction):

Carc. 1A

SECTION 12: Ecological information

· 12.1 Toxicity

· Aquatic toxicity: No further relevant information available.

· 12.2 Persistence and degradability No further relevant information available.

• 12.3 Bioaccumulative potential No further relevant information available.

· 12.4 Mobility in soil No further relevant information available.

· Ecotoxical effects:

· Remark: After neutralization a reduction of the harming action may be recognized

· Additional ecological information:

· General notes:

Water hazard class 3 (German Regulation) (Self-assessment): extremely hazardous for water Danger to drinking water if even small quantities leak into the ground.

Must not reach sewage water or drainage ditch undiluted or unneutralized.

Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.

Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pH-values. A low pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably increased, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

· 12.5 Results of PBT and vPvB assessment

· PBT: Not applicable.

vPvB: Not applicable.

· 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Dilute concentrate with water and neutralize afterwards with suitable alkali material (sodium hydroxide solution, lime). The formed neutral salts are relatively environment-friendly.

Can be disposed of with household garbage with prior chemical-physical or biological treatment following consultation with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.
